***Aplio flex***

Scan smart.  
Ignite your potential.

# Remarkably sharp. Amazingly mobile.

Pristine images, automated functions, intelligent workflows – Aplio flex truly is as sharp as it looks. The system excels with unmatched mobility, high efficiency and imaging quality. Loaded with smart imaging and workflow functions, Aplio flex is the ideal system to handle a wide variety of imaging needs in a busy clinic. Its versatile design ensures consistently high performance across the entire imaging portfolio.

# Light as a feather.

Experience how beneficial it is to work with equipment that is particularly light and easy to handle – just like Aplio's new set of lightweight and ergonomic transducers.

## Next-generation transducer design

A new set of lightweight transducers with proven ergonomic design and outstanding usability allow you to work efficiently and comfortably.

Lightweight design

Easy grip shape

Multipurpose capability

# Ready to perform.

With its outstanding image quality, robust design and intelligent workflow, Aplio flex offers you rock-solid performance for all of your daily imaging tasks and beyond.

Advanced imaging and quantification functions such as Attenuation Imaging (ATI) can give you the ability to offer more detailed, in-depth examinations to your patients.

Aplio flex provides a variety of image optimization options from Canon's high-end portfolio, enabling you to achieve optimal image quality.

Thanks to its uncompromising multipurpose design, the Aplio flex offers you consistently solid performance across the entire range of applications.

# Say hello to simple.

Aplio flex is quick and easy to use and offers many smart, time-saving functions for a fast and efficient workflow. It quickly connects you to your network and colleagues, just like it should.

## Get there faster

Automated detection and measurement powered by AI helps you improve your workflow consistency and efficiency simply at the touch of a button.

## Switch to autopilot

While Aplio's Protocol Assistant guides you through your workflow with a clear, easy-to-read menu, single-click functions such as Auto EF enable the examination to be carried out quickly and efficiently.

powered by  **Altiivity**

Aplio flex connects seamlessly into hospital networks providing a full-spectrum solution that helps you manage patients and exams more efficiently, while embracing standardized data formats.

For smaller hospitals or practices without an extensive hospital network, Aplio flex also offers the option of connecting to a local NAS in order to securely store and share all data.

### Cloud services

The system's integrated Tricefy\* option gives you direct access to cloud-based communication, image management and documentation. With Tricefy, you can instantly share medical images and reports with referring doctors and patients.

\*requires an additional third-party subscription and may not be available in all regions

### Remote connection

Need expert advice? Or want to share some findings with peers? With Canon's optional ApliGate solution you can interact securely – right from your workplace.

### Uncompromising

The system's full-fledged user interface helps you ensure uncompromised imaging results even in mobile use.

### Flexible

Aplio flex can be supplied with a range of panel heights for optimal positioning depending on your requirements.

### Mobile

Thanks to its fully integrated battery option, Aplio flex supports you in working remotely and cordless for up to 30 minutes.

### Agile

Its small form factor, reduced weight and the large easy-roll casters make the system extremely maneuverable.
